Since 2015/16 academic year, Baltic International Academy has launched an international project ERASMUS + on mobility of Russian and Latvian students and academic staff in cooperation with the National Research Tomsk State University, St. Petersburg State University of Economics and Plekhanov Russian University of Economics.

The project involves an exchange and training of students in Partner HEIs for one semester. Students receive a scholarship for the period of their training, and reimbursement of the travel costs (arrival and return).

The selection of students will take place on competitive basis as seats are limited. Also, there will be an exchange of academic staff within the project.

The duration of the project is 2 years.

The exchange starts in Spring semester of 2015/2016 academic year. We invite all interested persons to contact the project coordinators at each partner institution.
