19-20 April 2013, Riga, Latvia
Call for Papers

Multidimensional Translation: From Science to Arts

The Translation Program of the Baltic International Academy (Latvia) and the Institute of East Slavonic Philology of the University of Silesia (Poland) invite abstracts for paper and poster presentation at the international conference *Multidimensional Translation: From Science to Arts* focusing on human

Theme of the Conference

Translation is a communication tool that might serve either as a bridge or dividing point for individuals, cultures and nations. As a human-generated activity, it can be approached from a variety of perspectives ranging from scientific to artistic. The aim of this conference is to bring together language professionals interested in the following areas:

- Translation in the Brain: Representation & Processing Mechanisms
- Issues in Translation of Specialized Texts and Discourse
- Freedom of Expression in Translation
- Translation: Intercultural Communication Bridge & the Dividing Point
- The Interplay of the Foreign and Native Language: Comparative Stylistics & Mental Representations
- Theory and Practice: Linguistic Aspects of Translation
- Developing Translators' Competence
- Development of Translator and Interpreter Training Resources
- Evaluation of Translation Quality
